

LFE INSTITUTE'S FEATURED WORKSHOPS

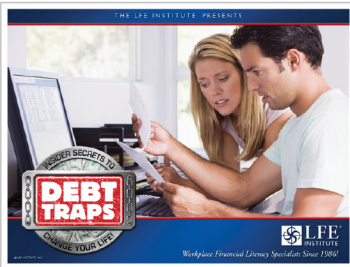

MANAGING YOUR MONEY!

As LFE's flagship course, no other program has had such a powerful impact on employees' lives over the past two decades. This 3-hour workshop teaches employees how to stretch their paychecks (without budgeting!), reduce their debts, ease family conflicts over finances, avoid financial traps, and find an extra \$4,000–\$7,000/year! As one bank manager stated, "This workshop should be a requirement for anyone who earns a paycheck!"

INVESTING FOR A GREAT RETIREMENT!

In this 2-hour class, employees learn investment basics through accelerated learning methodologies. No other investment workshop teaches the basics of investing, asset allocation, diversification strategies, tips on working with investment advisors, and multiple techniques for long-term saving goals in this type of skill-based format. LFE recently completely renovated this course to help today's workforce cope with the changing dynamics in the investment markets. This action-oriented clinic also helps minimize ERISA-related liabilities and increases participation in retirement plans.

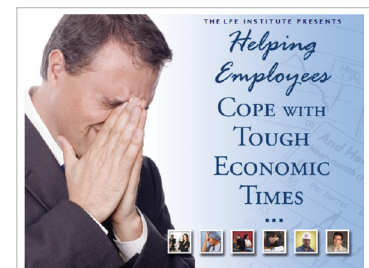

DEBT TRAPS! INSIDER SECRETS TO CHANGE YOUR LIFE!

Employees are falling for debt traps every day that could affect their financial lives for years to come. This special 1-hour course covers little-known facts, money-saving strategies, and *insider secrets* to help your employees prevent or fix debt and credit problems—both now and in the future. There isn't a workshop like this anywhere. It will literally change your employees' lives!

HELPING EMPLOYEES COPE WITH TOUGH ECONOMIC TIMES

Employees everywhere are struggling with specific financial challenges due to the current economy. This 1-hour workshop is designed for Management Teams and Human Resource Departments. It is filled with concise strategies you will want to immediately share with your employees to help them avoid the latest financial traps and keep them from falling victim to the newest scams in the market. This is an essential workshop for every employer!

MONEY ROADBLOCKS! HELPING STUDENTS AVOID FINANCIAL PITFALLS

Today's students face unique financial challenges. This engaging 1-hour presentation helps teens become aware of common misconceptions and myths, evaluate bank and credit card offers, find ways to free up more money for higher education, and avoid financial traps when making important decisions as they move out on their own. The goal is to help these vulnerable young adults avoid making costly financial mistakes that could negatively affect them for years to come!
